Our 17 year history assures best practice in privacy, security and the ethical use of data

We all have a responsibility to use data for good

Privacy

- We have built our business based on privacy by design principles for the past 17 years
- Quantum has strict protocols around the receipt and storage of personal information
- All information is de-identified using an irreversible tokenisation process with no ability to re-identify individuals.

Security

- We are ISO27001 certified - internationally recognised for our ability to uphold best practice standards across information security
- We use 'bank grade' security to store and process our data
- Comply with 200+ security requirements from NAB, Woolworths and other data partners
- All partner data is held in separate restricted environments
- All access to partner data is limited to essential staff only
- Security environment and processes regularly audited by our data partners.

Ethical use of data

Applies to all facets of our work, from the initiatives we take on, the information we use and how our solutions impact individuals, organisations and society.

Quantum believes in using data for progress, with great care and responsibility. As such please respect the commercial in confidence nature of this document.

Executive summary

01

Task 1

- Mainstream Young Singles/Couples generated the highest chip sales.
- Budget Families purchased the highest chip volume.
- Premium customers showed higher average spend per pack.
- Kettle and Doritos emerged as top-performing brands.

02

Task 2

- Trial layout was successful in Store 77 and Store 88.
- No statistically significant improvement was observed in Store 86
- Selective rollout is recommended.

01

Category

Key Category Insights – Chips Purchasing Behaviour

Mainstream Young Singles/Couples were the strongest revenue-driving customer segment in the chips category.

- Mainstream Young Singles/Couples contributed the highest chip sales.
- Budget Families purchased larger quantities, driving category volume.
- Premium customers showed higher average spend per transaction.

Recommendation:

Focus promotional campaigns and premium chip offerings toward Mainstream Young Singles/Couples while maintaining strong value-pack options for families.

Affluence and Purchasing Behaviour

Premium customers spent more per transaction compared to Budget and Mainstream customers.

- Budget customers contributed through higher purchase volume.
- Premium customers demonstrated willingness to pay more per purchase.
- Mainstream customers generated strong overall category contribution.

Recommendation:

Target premium customers with premium chip offerings while maintaining value-based promotions for budget shoppers.

Customer Segment Deep Dive

Purchasing behaviour varies significantly across life stage and affluence groups.

- Young Singles/Couples in the Mainstream segment contributed strongly to category sales.
- Budget Families generated high purchase volumes.
- Premium shoppers demonstrated higher average spending behaviour.

02

Trial store performance

Control Store Selection

- Store 77 demonstrated a statistically significant improvement during the trial period.
- Store 88 also showed strong positive performance following layout changes.
- Store 86 did not experience meaningful improvement compared to its control store.

Performance Assessment of Trial Stores

The trial layout delivered positive results in 2 out of 3 stores.

Store	P-value	Result	
77	0.000065	Successful	• Store 77 showed a statistically significant improvement in sales performance.
86	0.311	No Significant Impact	• Store 88 demonstrated strong positive impact following the layout implementation.
88	0.0000016	Successful	• Store 86 showed no statistically meaningful improvement during the trial period.
